- Congratulations for choosing our charcoal grill. This product has been designed and built in accordance with Italian safety legislation. It is made of top-quality materials such as stainless steel to maintain unchanged overtime its features. This manual will follow you step by step to a better use of the barbecue.

Please, take care of it!!

Child Safety

The use of the device is for adults only. Parts of the grill can become very hot. Keep the grill therefore out of the children's reach. Never let them play nearby, even after cooling dishes, pots and pans may fall down.

During Use

- Before the use, be sure to be in an appropriate ventilated environment, in order to avoid a dangerous oxygen lack. This BBQ is only for the out-door use, never utilize it inside!!!
- Apart from the cooking grid some other external parts reach high temperatures.
- Use protective gloves when you are working!
- If you handle other devices nearby your BBQ, make sure that the electric cables are not damaged by the contact with the hot surfaces (electric shock risk).
- Before cleaning and storing your BBQ, wait until it has completely cooled down, avoiding burns and fires.
- The BBQ is scheduled exclusively for grilling food on grid supplied by the manufacturer
- Improper use and the use of non-original parts will nullify the warranty.
- However, it is possible heating pots (without plastic handles) on the grid.
- Repairs and special maintenances must only be performed by authorized experts using exclusively original spare parts.
- Not professional repairs can cause malfunctions or damages to people or things. If necessary, contact your retailer where you purchased your device.
- Use only a mild detergent specifically designed for stainless steel.
- Abrasive products and steel wool can scratch the surface. Always clean following the grain direction of the

Caution

NEVER let the grill unattended during the use. High temperature can ignite in every moment the grill fat

After each use, remove residual oil and grease from the grid, the internal grease conduit and the grease tray in order to avoid a possible inflammation.

Never place flammable materials near the cooking griddle (Fire risk!).

Place the BBQ on a stable and smooth surface before igniting the charcoal in order to guarantee the correct slope of the grease's conduit.

material.

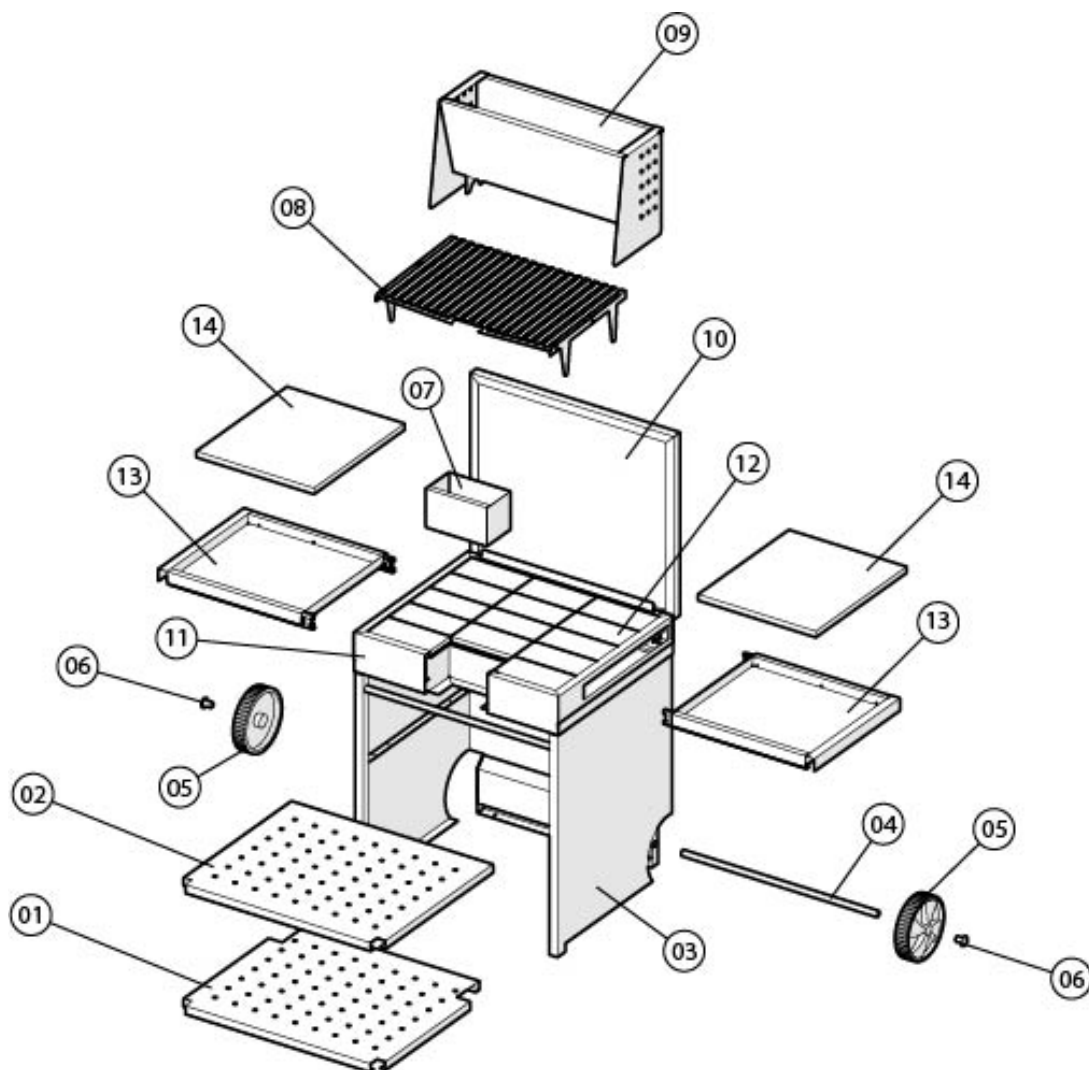

- Handle components with a Total Black finish with care. The Total Black finish, similar to the glass, can chip if subjected to impacts. Stainless steel parts tend to discolor when heated, taking on a golden-brown or burnished hue. This is normal and does not affect the performance of the BBQ.

Disposal of packaging and product:

- After installation, the packaging can be disposed of with the normal household rubbish. Please make sure that the materials are to be differentiated according to the local recycling standard.
- When disposing of the device, however, you should contact the appropriate recycling centre for your country in order to guarantee a proper recycling of all the mechanical parts. Your environment will thank you!!

- The BBQ Cubo is shipped fully assembled and doesn't need installation. Please remove the packaging and check the unit for shipping damages. Don't make any changes to the device parts. Each intervention and change could be dangerous. The constructor declines any responsibility for the non observance of the safety rules described in this handbook
