

Better solutions for cleaning & protecting outdoor furniture

Jati & Kebon offers you a complete program with the best maintenance products for outdoor furniture.
These are the advantages for you:

Why also selling care products for outdoor furniture?

1. Less complaints, issues and recalls for your customer service
2. Discount preventer
3. A bit of extra margin
4. Fits in your Full Service/Total Solution proposition
5. Increase the visibility of your shop/webshop
6. More in-store / web traffic due to repeat purchases

1 Our bottle concept: simple, good looking & sustainable

All products in only 2 different bottles:
This offers a clear, well designed shelf
with overview.

1000 ml.

750 ml.

NO TIME TO WASTE THIS WATER-BASED, NON-HAZARDOUS FORMULA
IN A 100% RECYCLED R-HDPE PLASTIC BOTTLE IS **ECO SAFE**
SAFER FOR HUMAN BEINGS & THE ENVIRONMENT

2 Safe for the human being and the environment

You will not find these pictograms on
Jati & Kebon cleaning products.
This is because we do not use
environmentally hazardous components, as
these contribute significantly to the ozone
hole and the greenhouse effect.

Most of the others:

DANGER - WARNINGS

3

Innovative, high-performance formulas

Hydrophobic nanotechnology protects surfaces better and decreases the cleaning frequency.

4

Labels in a fresh and modern design

- Clear product names
- Simple and clear communication with close-ups
- Water Based
- All texts at the back labels are made according to the REACH & CLP-guidelines of the United Nations (GHS) which are worldwide obliged.
- Label instructions in 5 different languages.

6 Keep your outdoor furniture looking new for longer:

Product	How often?	When?
7. Teak		
Teak Cleaner	Once a year	Beginning of April
Teak Protector	Twice a year	Beginning of April & July
8. Fabric		
Fabrics & Rope Cleaner	When they are dirty	-
Fabrics & Rope Protector	Twice a year	April & July
9. Outdoor Furniture - other materials		
Multisurface Cleaner	When they are dirty	-
Multisurface Protector	Once a year	Beginning of April

For Teak

Teak Cleaner

It's a Cleaner & Brightener in one!

To clean and restore discoloured, dark grey teak. This water-based formula is not only a high concentration cleaner, but it also contains brightener-ingredients, which bring back the original colour of new teak.

Most of the competitive brands require a 2-step-process: a separate cleaner and brightener. This creates twice as much work for the consumer.

An extra advantage: unlike most of the other teak cleaners, ours is classified as non-hazardous.

Coverage:

m²: 10 - 12

Sq. ft.: 110 - 130

Chairs: 10 - 12

Tables (240 cm. / 80"): 2 or 3

Sofas / Benches (240 cm. / 80"): 3 or 4

Content: 1000 ml.

TEAK CLEANER

DE Teak Reiniger

Zur Reinigung und Auffrischung von vergrautem Teak

NL Teak Reiniger

Reiniger voor het herstellen van grijs geworden teak & hardhout

FR Nettoyant pour Teck

Pour rénover le teck très décoloré

ES Limpiador de madera de teca

Restaura la teca y la madera dura desgastada

AR منظف العصير

GB INSTRUCTIONS FOR USE:

- Before using this product, eye protection and rubber gloves should be worn.
- Cover the ground under your working area before cleaning.
- First moisten the furniture with water.
- Shake this Cleaner before use.
- Apply this Cleaner with a soft cloth or sponge. Allow to soak for 3 minutes.
- Brush the furniture clean with a scrubbing pad in the direction of the grain.
- Rinse furniture well with water.
- For making teak water repellent or for retaining the patina gray colour of weathered teak for longer: Use our Teak Protector.

HAZARD WARNINGS: • May irritate skin or eyes. May cause serious injury if ingested • If medical advice is needed, have product container or label at hand • Keep out of reach of children • Keep container tightly closed • Do not get in eyes, on skin, or on clothing • Use only outdoors or in a well-ventilated area • IF SWALLOWED: Do NOT induce vomiting • We take no responsibility for misuse • Important: keep frost free.

EMERGENCY FIRST AID: • IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower • IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing • IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing • OTHER: provide physician with a copy of the MSDS, available at the website below.

CHEMICAL INGREDIENTS: Water, Citric Acid, Sodiumlaurylsulfate, Mono Sodiumcitrate anhydrous.

CONTAINS: < 5% anionic Tensides.

NO TO THE WASTE THIS WATER-BASED, NON-HAZARDOUS FORMULA IN A 100% RECYCLED R-HDPE PLASTIC BOTTLE IS SAFER FOR HUMAN BEINGS & THE ENVIRONMENT

MADE IN THE EU BY GOLDEN-CARE.COM

For Teak

Teak Protector

Makes teak water- & dirt repellent.
Maintains the patina grey colour of teak for longer.

An almost invisible wood impregnator that makes it difficult for wine, olive oil, butter, coffee to seep into teak.

Also very suitable for the protection of indoor wooden furniture.

- Helps to prevent stains while keeping the natural look of the surface
- Allows moisture vapour transmission
- With built-in Mould & Mildew inhibitor
- Designed for optimal penetration into dense, low-porosity surfaces

Coverage:

m²: 10 - 12

Sq. ft.: 110 - 130

Chairs: 10 - 12

Tables (240 cm. / 80"): 2 or 3

Sofas / Benches (240 cm. / 80"): 3 or 4

Content: 1000 ml.

TEAK PROTECTOR

- DE** Transparenter Fleckenschutz & Versiegler. Feuchtigkeit und Flecken können nicht einfach in das Teak eindringen. Erhält die patinagraue Farbe länger
- NL** Transparante Beschermer. Maakt teak water-/vuilafstotend. Helpt vlekken voorkomen. Behoudt langer de patina-grijze kleur
- FR** Impérmeabilisant Teck. Protège vos bois extérieurs de la pluie. Protection renforcée anti-tâches et anti-graisses
- ES** Escudo Protector para Teca. Madera repelente al agua, a las manchas agresivas y al moho
- AR** واقى من السيل

GB INSTRUCTIONS FOR USE:

- Before using this product, eye protection and rubber gloves should be worn. Cover the ground under your work area before starting.
- New Teak: first clean with our Teak Cleaner to remove some of the natural oils (or weather for 2 weeks outside before treatment).
- On dirty dark-grey wood: clean the wood first with our Teak Cleaner. If cleaned wood feels rough, sand lightly before treating with Protector.
- On patina-grey teak: apply carefully by dabbing (rubbing damages the grey patine).
- Make sure the wood is 100% dry and free of dust.
- Shake for at least one minute before use. Apply a thin layer of Protector with a soft cloth.
- Allow to dry for one hour and then apply a second thin coat of Protector. Let the wood dry for 48 hours before exposure to moisture and rain.
- It is recommended that you treat your teak furniture with Protector once a year. Tabletops should be treated more often.

HAZARD WARNINGS: • May irritate skin or eyes. May cause serious injury if ingested • If medical advice is needed, have product container or label at hand • Keep out of reach of children • Keep container tightly closed • Do not get in eyes, on skin, or on clothing • Use only outdoors or in a well-ventilated area • IF SWALLOWED: Do NOT induce vomiting • We take no responsibility for misuse • Important: keep frost free.

EMERGENCY FIRST AID: • IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower • IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing • IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing • OTHER: provide physician with a copy of the MSDS, available at the website below.

CHEMICAL INGREDIENTS: Water, Fluoro Polymer, Preservatives: 2-octyl-2H-isothiazol-3-one, Bronopol, 2-Butoxyethanol.

Outdoor Fabric, Textile & Rope

Fabrics & Rope Cleaner

For cushions, seatings, rope and umbrellas. When you want to prolong the life of your umbrella / outdoor furniture, regular cleaning (at least once a season) can grab dirt before it becomes part of the furniture.

Our cleaner is easy to use, removes dirt and restores the new look of fabrics, textiles and upholstery.

After cleaning always treat with our Fabric Protector before outdoor exposure.

Coverage:

m²: 8 - 10

Sq. ft.: 90 - 110

Chairs: 8 - 10

Sofas / Benches (240 cm. / 80"): 3

Content: 750 ml.

Tip for your Customer Service Department:

What to do with very severe mold and mildew stains?

When fabrics are heavily weathered for many, many years in a humid outdoor environment, severe mold and mildew stains might become visible.

These stains will not always be completely removed by our Fabric & Upholstery Cleaner.

What to do then?

Simple. Take a bucket and just mix our Fabric cleaner with Household Bleach in a ratio 1:1. And then repeat the cleaning process as described in the Fabric Cleaner Instructions.

Note: Bleach sometimes slightly discolours the fabric. But it is the only way to completely remove these very severe stains.

05-000015

GB INSTRUCTIONS FOR USE:

- Before using this product, eye protection and rubber gloves should be worn. Cover the ground under your working area before cleaning.
- NOTE: Test for colour fastness in an inconspicuous area before using. Fabric Cleaner is ready to use.
- Moisten the fabric to be treated thoroughly with water beforehand: (Small surfaces by dipping into water, larger surfaces using a sponge or plant spray). Spray Fabric Cleaner onto the wet, stained area.
- The time the cleaner needs to take effect depends on the extent of staining, and may vary from 3 to 10 minutes.
- Remove dirt and grease with a sponge or a soft scrubbing pad. Afterwards, rinse the treated fabric thoroughly with clean water and allow to dry.
- If dirt & stains have not been completely removed, repeat the treatment leaving the cleaner a longer penetration time.
- Afterwards use Fabric Protector to make the treated fabric water repellant again.

HAZARD WARNINGS: • May irritate skin or eyes. May cause serious injury if ingested • If medical advice is needed, have product container or label at hand • Keep out of reach of children • Keep container tightly closed • Do not get in eyes, on skin, or on clothing • Use only outdoors or in a well-ventilated area • IF SWALLOWED: Do NOT induce vomiting • We take no responsibility for misuse • Important: keep frost free.

EMERGENCY FIRST AID: • IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower • IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing • IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing • OTHER: provide physician with a copy of the MSDS, available at the website below.

Outdoor Fabric, Textile & Rope

Fabrics & Rope Protector

- Invisible and transparent.
- Makes fabrics water- & dirt repellent.
- Helps to prevent stains while keeping the natural look of fabrics.
- Allows moisture vapour transmission.
- With built-in Mould & Mildew inhibitor.
- Designed for optimal penetration into low-porosity surfaces.

Fabrics for outdoor cushions, seatings, rope and parasols are most of the time thoroughly impregnated which makes them water & stain resistant.

But just like with suede shoes, you can keep also your fabrics looking like new for longer when you regularly give them a water repellent treatment with Fabric Protector.

Coverage:

m²: 8 - 10

Sq. ft.: 90 - 110

Chairs: 8 - 10

Sofas / Benches (240 cm. / 80"): 3

Content: 750 ml.

GB INSTRUCTIONS FOR USE:

- Before using this product, eye protection and rubber gloves should be worn. Cover the ground under your work area before starting.
- Dirty fabrics: Use Fabric Cleaner first to remove dirt and stains. Allow to dry completely.
- This Textile Protector is ready to use. Shake this Textile Protector before use.
- Spray directly on the cleaned area.
- Spray the exact amount of Protector in such a way that the cleaned area is soaked completely.
- Allow to dry completely for 24 hours before further use
- One application should be sufficient to restore water repellency.
- It is recommended that you treat your fabrics with this Textile Protector once a year. Horizontal areas of fabrics with a lot of outdoor exposure should be treated twice a year.

HAZARD WARNINGS: • May irritate skin or eyes. May cause serious injury if ingested • If medical advice is needed, have product container or label at hand • Keep out of reach of children • Keep container tightly closed • Do not get in eyes, on skin, or on clothing • Use only outdoors or in a well-ventilated area • IF SWALLOWED: Do NOT induce vomiting • We take no responsibility for misuse • Important: keep frost free.
