IMPORTANT PLEASE READ

All products manufactured and supplied by BAGNODESIGN are fit for purpose as long as they are Installed, used correctly, cleaned and receive regular maintenance in accordance with these instructions...

Remove all packaging and check the product for damage or missing parts before commencing with the installation.

Any alterations made to this product and its components may infringe product certification, infringe water regulations and invalidate the guarantee. The Installation must comply with all local/national water supply authority regulations/bylaws and building and plumbing regulations, therefore we strongly recommend that your product be installed by a reputable qualified trade's person.

PRODUCT LIFECYCLE

"The product LiveCyclele is the collective stages that a product goes through from its conception and design through to its ultimate disposal."

DISPOSAL GUIDANCE

The best way to ensure your Product has a long life is to follow the Care and Maintenance guides set by the Manufacture after purchase. This document can be found at www.sanipexgroup.com. The life cycle of the product is not in correlation to the product Guarantee; the standards the products are manufactured or certified to (e.g. CE & WRAS) can exceed past the Guarantee duration. After the life cycle of the product is deemed complete by the end-user please follow the below to dispose of the items correctly...

CLEANING CARE GUIDE

Only use a mild soap and water for cleaning.
Rinse with water to remove the mild soap solution.
We recommend the product is dried using a soft cloth after every use.

Never use any abrasive or strong cleaning products containing, bleaches, acids (hydrochloric, formic, phosphorus, chlorine or acetic), strong detergents, limescale remover, alcohol or dyes etc.
Never use abrasive cleaning pads, wire wool or microfibre cloths.
Never use cleaning equipment that may have been pre-used and contaminated with the above substances.
Never apply the cleaning product directly onto the finished surface.

TOOLS REQUIRED (Not supplied)

Carry the bathtub, and place in the final position, using a pencil draw around the perimeter of the base, this will help you re-align the bathtub on final fixing.

Remove the bathtub, inside the pencil line perimeter arrange the waste in the floor.

Place the tub.

Connect the waste, remove the support and gently move the bathtub in to the position.

Place the bathtub onto the finished floor level. Make sure that both horizontal axis are level. Levels can be adjusted by shims (*not included*).

Filling the bath with water will help with the final leveling and show if any further "shim" areas required.

Remove the water from the bathtub. apply a bead of Silicon around the outer perimeter,

Allow the silicon to cure for up-to 8 hours, after this time has passed the installation is

COMPLETE!
