

## Installation Guide

AQUAECO WALL MOUNTED TOUCHLESS FOAM SOAP DISPENSER

A member of SANIPEXGROUP www.sanipexgroup.com

### IMPORTANT PLEASE READ

All products manufactured and supplied by AQUAZONE are fit for purpose as long as they are Installed, used correctly, cleaned and receive regular maintenance in accordance with these instructions...

Remove all packaging and check the product for damage or missing parts before commencing with the installation.

Any alterations made to this product and its components may infringe product certification, infringe water regulations and invalidate the guarantee. The Installation must comply with all local/national water supply authority regulations/byelaws and building and plumbing regulations, therefore we strongly recommend that your product be installed by a reputable qualified trade's person.

#### PRODUCT LIFECYCLE

"The product lifecycle is the collective stages that a product goes through from its conception and design through to its ultimate disposal."

### DISPOSAL GUIDANCE

The best way to ensure your Product has a long life is to follow the Care and Maintenance guides set by the Manufacture after purchase. This document can be found at *www.aquazone.ae*.

The lifecycle of the product is not in correlation to the product Guarantee; the standards the products are manufactured or certified to (e.g. CE & WRAS) can exceed past the Guarantee duration. After the lifecycle of the product is deemed complete by the end-user please follow the below to dispose of the items correctly...

#### Mixers (Taps):

If the mixers are no longer accepted due to mechanical use or aesthetic style, these can be disposed of at a registered Local Authority waste recycling centre where the individual components can be sorted.

#### CLEANING CARE GUIDE

Only use a mild soap and water for cleaning. Rinse with water to remove the mild soap solution. We recommend the product is dried using a soft cloth after every use.

Never use any abrasive or strong cleaning products containing, bleaches, acids (hydrochloric, formic, phosphorus, chlorine or acetic), strong detergents, limescale remover, alcohol or dyes etc. Never use abrasive cleaning pads, wire wool or microfibre cloths. Never use cleaning equipment that may have been pre-used and contaminated with the above substances.

**Never** apply the cleaning product directly onto the finished surface.

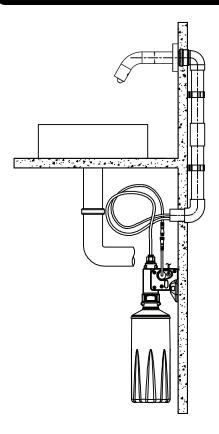

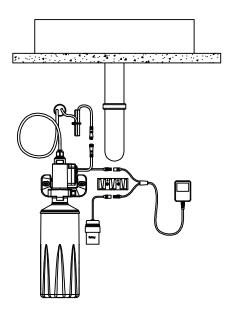

# Specifications:

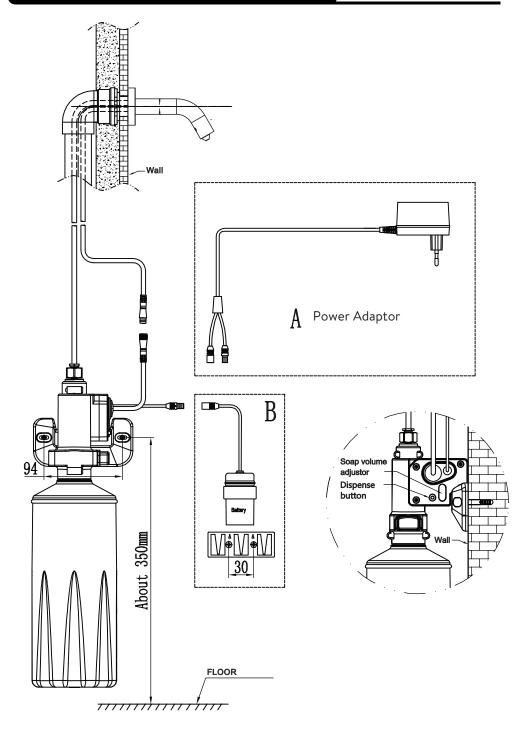

Model No.	AQE-ECO-257-XX
Material	Brass
Power Supply	AC:220V
	DC:6V (4xAA)
Bottle Capacity	1.6-2L
Ambient Temp.	Normal Temperature
Sensor Range	15±3cm
Viscosity	100-3500cp(mpA·s)
Soap Volume	≤2mL/times(four gears)

### Installation:

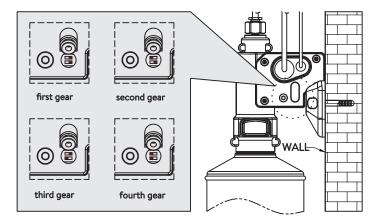

## Roughing in:

### Installation steps:

- 1. Fill the soap bottle with liquid soap for the first use.
- 2. Press and hold button until liquid soap is dispensed from the nozzle.
- 3. Place hand below the nozzle to dispense liquid soap into palm of hand.

The soap dispensers have 4 settings to adjust dispense of soap, the first gear being the least volume and the fourth being maximum. Factory default is set at second gear.

### CARE AND MAINTENANCE

If the soap dispenser fails to function correctly, firstly check all connections are tight and free from air leaks. If dispenser still fails to function, place manifold into a bottle of warm water. Pump the warm water through the dispenser to dislodge any dried soap residue and then refit manifold into soap bottle.

Water marks and soap residue on polished chrome surfaces are best cleaned using warm water and a mild detergent. Use a stainless steel cleaner for brushed stainless steel soap dispensers. Never use an abrasive cloth to remove stubborn stains. Dry with a soft clean cloth.
